FRENCH GOVERNMENT DENIES MAKING OVERTURE TO SEN. HARDING ON NEW WORLD ASSOCIATION

HARDING AND FRANCE BOTH REPLY TO WILSON INQUIRY

WASHINGTON, D. C., October 12.—A very manifest among the French people," he added that his words could not be construed to say that the French government had sent anybody to meet.

Referring to Mr. Wilson's suggestion of an international association of nations, Senator Harding pointed out that he is a member of the foreign relations committee as well as a member of the executive committee of the League of Nations.

The text of Senator Harding's letter sent to reply to one from the President asking whether the senator had been correctly quoted in his Greenback speech, is as follows:

Dear Mr. President:

I have before me a press copy of your letter to me of this date, though I am not in receipt of the original copy. I am glad to make a prompt reply.

It is very gratifying that you bestirred to draw inferences without my assurance that I am correctly quoted. The quotation as reported in your letter is not exact. The notes of the stenographer reporting my remarks quote me as saying "France has sent her spokesmen to me informally, asking me to lead the way for an association of nations."

I am sure that my words could not be construed to say that the French government has sent anybody to me. The thought I was trying to convey, was that there had come to me those who spoke a sentiment which they represented to be very manifest among the French people, but nothing could suggest the French government having violated proprieties of international relations. Official France would never seek to go over your high office as our chief executive to appeal to the American people or any portion thereof.

I can see no impropriety in private citizens of France, or in Americans deeply friendly to France, expressing to me their understanding of sentiment in that friendly republic.

It is not important enough to discuss, perhaps, but I very respectfully urge that an informal expression being rather more than that of a private citizen, I hold a place as a member of the foreign relations committee of the United States, which is charged with certain constitutional authority in dealing with foreign relations, and I am necessarily constrained to say that I am the member of the Republican party in our republic.

A combination of these two positions it ought not to be understood that some very devoted friends of a new and better relationship among nations, no matter whence they come should wish to advise me relating to spiraling in cooperation with our own republic in attaining that high purpose. Let me assure you again of the observance of all the proprieties and again assert that the French government has maintained that great respect for your position to which I myself subscribe.

With great respect, I am,

Very truly,

WARREN G. HARDING.

FANCY CHICKENS REPLACE DOGS AS STYLIST PETS; ACTRESS STARTS FAD

Miss Louise Glau and her imported Minors chicken.

The bluest blooded poultry with the most brilliant plumage may supplant the pedigreed poodle, monkey, parrot, baby lion or bear which have so long held sway as the fashionable pets for milady.

Miss Louise Glau, the well known movie actress, started the fad at Pelatuna, California, and it has already been eagerly taken up. She is shown here with a handsome black Minors chicken which was sent to her by a French customer. Miss Glau leads her chicken with a green silk ribbon, attached to a collar about its neck on which the owner's name is embroidered. Rhode Island Reds and White Leghorns are also popular as pets.

Politics Takes A Back Seat For Economics In Michigan, Says Lawrence

BY DAVID LAWRENCE.
(Copyright by Times Publishing Co.)
DETROIT, Mich., Oct. 12.—Politics takes a back seat for economics, there is a general feeling in the state, according to David Lawrence, who is cutting down the price of labor and weeding out inefficient workers in the Presidential election.

Perhaps it's because Michigan is the battleground for a victory for Harding is universally expected that the realignment in business is the most vital thing in Detroit today.

Naturally in an industry like automobile making which has always excluded a full share of optimism, the feeling is that the Presidential election will be a turning point for the better. The manufacturers are going ahead on the theory that 1921 will be a better year than 1920 for them, that it all depends upon finance and credit. Makers of automobiles do not go around shouting it from the housetops but they are passing through the severest test the industry has ever had. The whole trouble may be traced to the action of the Federal Reserve Board in restricting credit on "non-essential" products and leaving it to the bankers everywhere to determine what were "non-essential" products.

The manufacturers and dealers have contended that an automobile is no longer a luxury but a necessity, but when the Federal Reserve Districts of Kansas City and Dallas refused to handle commercial paper based on automobile transactions, the business began to suffer in these sections and elsewhere, and the restriction was even practiced by banks in this vicinity which had previously been most liberal with their loans.

As a matter of fact, the restriction of credit was bound to hurt the automobile business more than most other lines because of the peculiar way in which it is financed. The dealer must pay a deposit when he orders his cars and must pay the rest of the bill when he takes each machine from the freight

Big "Overturn" In Baseball; Abolish National Commission

CHICAGO, Oct. 12.—Owners of five American league baseball clubs, those of Philadelphia, St. Louis, Washington, Detroit and Cleveland, men who have supported President Ban Johnson of the league in several controversies this season and in past seasons, have until November 1, the opportunity of joining the other three club owners of the league and entire eight of the National league in the reorganization of baseball or face the prospect of a fight to oust them from major league play.

Representatives of all the National league baseball clubs and three American clubs, New York, Chicago, and Boston, today were on record favoring abolition of the National agreement between professional leagues with the national commission abolished, and a civilian tribunal of three men not financially interested in the game, to complete control.

Yesterday's conference of more than nine hours' duration, closed its work with resolutions, adopted last night, proposing complete reorganization of major league baseball.

The twelfth club for the new scheme of play to be followed next season will be chosen from some other city, should it develop that none of the outstanding five club owners fails to express willingness to enter the new pact, it was stated today.

While the definite threat was expressed in the resolution endorsed by the 11 baseball magnates to lay plans for a new league circuit without the five holdout American league clubs, if they refused to agree to the reorganization of the national commission, some of the club owners present declared that no plans would be discussed for excluding the five clubs in the new scheme of baseball control unless they refused to enter the pact.

To Bare Parties' Money Deals Before Election

ST. LOUIS, MO., October 12.—Five days before the coming election, on Thursday, October 28, complete records of the collection and disbursements of the Republican and Democratic parties will be submitted to the public.

The senate committee appointed to investigate campaign expenditures, meeting here, yesterday directed the chairman of the national senatorial and congressional committees, of the two parties, to file such reports at Chicago on that date. The reports are to cover all activities since the party chairmen testified at the committee hearing in Chicago several weeks ago.

In telegrams addressed to Will H. Hays, Republican chairman; George White, head of the Democratic national committee, and the heads of the other party organizations, the committee asked for complete lists of all subscriptions in excess of \$100, detailed figures on expenditures and also a list of all pledges, promises or underwriting. Senator Reed specifically asked for the latter in an effort to learn whether any arrangements had been made to meet the deficits which it has been reported, both parties will face after the election.

The senatorial committee recessed after yesterday's session and does not expect to meet again until after November 2, provided the party chairmen agree to file the information asked for to event they refuse or fail the senators decided to meet in Chicago prior to the election and subpoena the chairmen of the committees.

Investigation of all senatorial campaigns was deferred by the committee until after the election. Breckinridge Long, Democratic senatorial nominee in Missouri, who had been subpoenaed, was absent without being heard.

HARDING WILL WIND UP HIS CAMPAIGN IN OHIO

MAHON, O., October 12.—Senator Harding will wind up his campaign next week with a four day speaking trip in Ohio, during which he will make night addresses in Cleveland, Akron, Cincinnati and Columbus.

A complete list of the senator's speaking dates made public today provides for no other speaking except those at the four Ohio cities, named above and the three he will make on the trip beginning tomorrow. This trip will

Johnson Says He's Casualty Of Convention

CINCINNATI, O., October 12.—Senator Hiram W. Johnson, of California, addressing a Newport, Ky., audience last night described himself as "not a member of the senatorial oligarchy, but only a casualty of the last Republican party convention."

The senator declared he resented any charge of culpability against Senator Harding because of his stand on the question of the League of Nations. He said Senator Harding's views on the league were made increasingly plain as the days of the campaign pass, and added:

"The Democratic candidate says that if he is elected the United States will join the League of Nations; the Republican candidate says: 'If I am elected, we will not have anything to do with the League of Nations.'"

"For that reason Senator Harding is entitled to the vote of every red-blooded American."

Ohio W. C. T. U. In Session

CLEVELAND, O., October 12.—The state convention of the W. C. T. U. opened here today with Mrs. Florence D. Richards, of Columbus, presiding. The program includes evening addresses by Miss Anna A. Gordon, national prohibition commissioner; Mrs. William Stinchler, state president of the Kansas W. C. T. U.; Dr. J. W. Carr, Washington.

Day sessions will be devoted to discussions of plans of the organization for the future.

Among the subjects to come before the convention is one to make the world "dry" by 1925; to make an extensive study of child welfare and to promote Americanization work.

The convention closes Friday.

COX TO SPEAK AT ASHLAND, KENTUCKY, ON OCTOBER 26

NEW YORK, October 12.—The speaking itinerary for the last week of the campaign of Governor Cox, Democratic presidential nominee, was announced at Democratic national headquarters here today by Senator Pat Harrison, chairman of the speakers' bureau. The senator will go to Boston tonight to confer with the candidate on his visit to New York City next Saturday.

On October 25, Governor Cox will speak somewhere in West Virginia; October 26, Ashland, Ky., and Cincinnati; October 27, Dayton, his "home town"; October 28, Indianapolis; October 29, Akron; October 30, Chicago; November 1, Toledo, where he will end his campaign.

Senator Harrison said there may be additional way station speeches for Governor Cox.

COX BRANDS HARDING'S STATEMENT A "BLUNDER"

NASHUA, N. H., October 12.—Senator Harding's statement regarding alleged French overtures toward a new association of nations was branded by Governor Cox of Ohio, in speeches through New England today as a "blunder" and an attempt to deceive the American people.

"After President Wilson had asked him," said the Democratic presidential candidate, "if he had really stated that France had been guilty of such a blunder of international manners, he complained that he did not see how his words could be interpreted as meaning that France had sent her spokesmen to him when all he meant was that there had been those who had spoken a sentiment which they represented to be very manifest among the French people. The facts justify the conclusion that Senator Harding has supplied though deliberately, attempted to deceive the people of the United States."

"After talking to the king of French humorists, he leaves the direct inference in his statements that the people of France through a governmental agent were conveying to him their dissatisfaction with the league, when all the world knows the exact opposite is the truth. It is concluded on reprehensible as not to be excused as a stupid blunder."

The governor's reference to the "king of French humorists" was apparently

England To Proceed With Government Of Ireland Bill

LONDON, October 12.—The government intends to proceed with the government of Ireland bill, it was declared by a law lord today. The government is answering a question in the House of Commons today. The government was greeted with cheers from the coalition benches.

Mr. MacDonnell, Liberal member for the division of Leinster, demanded that the government intend to continue the "police law" bill.

The loud cries of "shame" from the opposition benches.

Mr. MacDonnell replied:

"The intention of the government, meantime, to put down the policy of murder."

Mr. MacDonnell, chief secretary for Ireland, stated that since January 1, policemen the number of 100, with 18 of the military, had been killed in Ireland, and 100 of the police and 10 of the military had been wounded. Police barracks to the number of 100 had been attacked and most of them destroyed. There had also been an organized attempt to boycott the police and their relatives.

Mr. MacDonnell said he could not detail the steps being taken to deal with "this campaign of murder and outrage," but he assured the House that the means of dealing with the situation were rapidly improving.

White Says Tide Turning To Democrats

COLUMBUS, O., October 12.—George White, chairman of the Democratic national committee, arrived here today for a conference with State Chairman W. W. Darbin. Chairman White, declared there has been a "remarkable change in sentiment," which he asserted, will elect Cox and Roosevelt. Mr. Darbin told the national chairman that Ohio will go for Cox.

Would Flood Loan For Farmers.

WASHINGTON, D. C., October 12.—A measure of treasury certificates of indebtedness to the amount of at least \$200,000,000 for the purpose of facilitating loans to farmers was advocated today by George D. Hampton, managing director of the Farmers' National Council, who said he had written to President Wilson seeking his cooperation.

Wrangel Forces Suffer Defeat

SEBASTOPOL, October 12.—(By the Associated Press)—The efforts of General Baron Wrangel, anti-Bolshevik leader in South Russia to take the Kakhovka bridgehead have resulted in failure with heavy losses to his forces. He and his staff were killed and wounded and in total captured by the Bolsheviks. The killed included the general commanding the Russian cavalry corps.

General Wrangel's troops have been thrown back into the Taurida area, behind the Dniester, which they still control.

Leon Treitz, the Russian Soviet minister, is said to be personally directing the Dniester campaign from Odessa.

A Free Booklet On How To Save Coal.

The price of fuel is so high this year that all must learn to save it. Here is a Government booklet which tells how to stoke a furnace, to arrange his drafts, and how to keep it at night to get the maximum of heat from each ton of coal.

The average householder gets about half the heat from his fuel that he should get.

This booklet will show him how to get the full return from every shovelful.

Even the man who is furnace-wise may get an idea here which will save him more coal.

The booklet is free to all who send two cents in stamps for return postage. Use the coupon.

The filling out the coupon print name and address or be sure to write plainly.

LONDON, October 12.—Sylvia Pankhurst, daughter of Mrs. Emmeline Pankhurst, was arrested today, charged with publishing seditious literature.

Allies Protest Vilna's Capture

LONDON, October 12.—A note with regard to the Vilna situation was handed to the Polish government Sunday by the French and British representatives in Warsaw, acting simultaneously. The note declared the allied governments disapproved the occupation of Vilna contrary to the armistice with Lithuania, concluded through the mediation of the League of Nations, and contrary to the assurances given by Poland to the allies and the League of Nations.

The note is friendly but firm in tone.

Governor Allen Will Press Demands For Probe Of Chicago Board Of Trade

TOPEKA, KAN., October 12.—Governor Allen will press demands for a government investigation of the Chicago board of trade on his charges that the board has been manipulated from an eastern campaign headquarters.

"It is impossible to conceive how various forms of gambling in the state and nation should be made illegal and yet become perfectly legitimate when the speculators and gamblers are betting on the prices of the food we must eat and the clothes we must wear."

"Had the Kansas farmers sold their wheat under the recent break they would have been forced to lose \$100,000. I cannot see the merit of legalized gambling in necessities for persons who sell thousands of bushels of grain they do not own and who buy thousands of bushels of grain that is never delivered."

Referring to the recent stamps of wheat and cotton, Governor Allen said:

"If it is shown that these price fluctuations were due to speculation, cold

LEE GILBERT ASSAULTED NEAR HOME

Lee Gilbert, 123 Twelfth street, was assaulted at 900 Cleveland Monday night at Twelfth and Railroad streets, within fifty yards of his home. He was struck in the head with a brick and sustained a serious injury. The assailant, who appeared on the scene within a few minutes after the assault was committed, was seen by several witnesses. Gilbert had been at an Odd Fellows meeting and was returning home when he was assaulted. He was walking on the sidewalk near the railroad tracks and had come to within a few feet of Twelfth street when someone accosted him with the words, "Been sleeping around here, have you?" Before he could ascertain who the man was, he said, he was struck over the head and rendered unconscious. When he regained consciousness, he managed to stagger to his home and his wife summoned medical aid and the police.

Mrs. Dasher and Micklethwait were soon at the home and dressed the wound which was about two inches long and quite deep. When he was questioned by Captain Startzman last night, Gilbert was still in a dazed condition and could not give any description of his assailant, except that he thought the man's voice sounded like that of a negro. He told police that he had no argument or trouble with anyone and could not explain why anyone should assault him. He said he would not be a reasonable man, according to Captain Startzman, because of the girl's gold watch and money were not taken.

It is a foreman at the Breece manufacturing plant. Chief Dist. Captain Startzman and Officer Flowers, searching the North End all night in an attempt to find some measure which would give them an inkling of the identity of the assailant. There was little or no improvement in the condition of the victim over night.

"Where Coal Meets Iron," Is New Slogan For Ashland, Kentucky

The Chamber of Commerce of Ashland, Ky., will use for its slogan, "Where Coal Meets Iron." It was suggested by Miss Fawn Donahue, who is employed in the office of the Ashland Independent and Miss Donahue was awarded the \$5 prize offered by Mr. S. P. Fetter, president of the Ashland Chamber of Commerce for the best slogan. This slogan will be used on all stationery and official documents of the Chamber of Commerce. More than two hundred suggestions were received.

Mrs. Donahue, who is a talented social and has many friends here is a sister of Mrs. Ernest C. Runyon of 226 Rhodes avenue New Boston, Mr. and Mrs. Runyon moved here a month ago from Ashland.

Feed your nerves plenty of phosphate with enough left over to give the blood and loose cells a generous helping and you should quickly note a return to old-time vigor with a power of endurance that will surprise you.

So say two prominent New York physicians. Thinness, weakness and lack of ambition are in most cases due to underfed nerves, and this is so simply because modern foods are so much weaker in phosphate elements. Over 40 per cent of the people of America need more phosphate, and about the only way that many thin people can take on more pounds of firm, vigorous flesh is to feed the nerves direct with Bitro Phosphate, a plain, ordinary organic phosphate that Fisher & Streich and all druggists know all about.

Tons of thousands of run-down, delicate, frail underweight people have learned the way to better health through Bitro Phosphate. It was just the one element lacking to put on much desired flesh and bring them health, happiness, and a mind free from dullness.

Why Teeth Stain

You leave a film-coat on them

All statements approved by authorities

Most teeth are dimmed more or less by a film. Smokers' teeth often become darkly coated.

That film makes teeth look dingy, and most tooth troubles are now traced to it.

Millions now combat that film in a new, scientific way. This is to offer a test to you, to show the unique results.

You must end film

The film is viscous—you can feel it with your tongue. It clings to teeth, enters crevices and stays.

Ordinary brushing methods leave much of this film intact. So millions find that well-brushed teeth discolor and decay. You must attack film in a better way, else you will suffer from it.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea.

STABLE BURNS; CHICKEN THIEVES SUPPOSED TO HAVE CAUSED FIRE

A two-story frame stable in the rear of the William (Bilton) Scott home, 526 Sixth street, was destroyed by fire about 8:45 o'clock Monday evening. The fire, of unknown origin, had gained much headway when discovered by Mr. Scott.

Members of the household and neighbors, who assisted in getting a number of chickens out of the stable, advanced the theory that the stable was accidentally set on fire by some one who was in the stable to steal some of the chickens as the doors were found open when the rescuers of the chickens went to the stable. This morning Mr. Scott said that he had accounted for about forty of the chickens, which leaves about 10 missing, stolen or burned.

The stable was used as a poultry house by Mr. Scott.

The fire alarm, turned in by a neighbor, called the East End and Seventh street fire companies to the fire and the flames that lit up the sky for a few minutes were soon under control, the firemen losing no time in getting several streams on the fire.

The loss is covered by insurance. Hazeltine will insure you.

U.S. Shipbuilding Slackens UP

NEW YORK, October 18. Ship building in the United States, which had that of England by 1,000,000 gross tons early this year, has fallen behind in the quarter ended September 30 by 1,000,000 gross tons, according to figures made public today by the Department of Shipping. The United States, however, the report said, continues to produce more than twice as much tonnage in all tankers as all other countries combined.

Valier's Enterprise Flour

First in the Field Again!

ONCE more Enterprise Flour has demonstrated its superior baking qualities. It was a consistent prize winner at the Indiana and Illinois State Fairs this year just as it was last year and in 1916.

In 1917 and '18 Enterprise flour was not on the market. Rather than lower its quality to meet war-time milling regulations we stopped making it altogether. The quality of Enterprise flour always has been and always will be nothing but the highest.

This year it was very hard to maintain the standard of Enterprise quality. The hard winter wheat crop which looked so fine in the fields turned out to be sadly lacking in strength. Only four per cent of it was good enough to mill into Enterprise flour.

Every bushel of the wheat we needed, because of its scarcity, commanded the highest premium we have ever paid. But we had to have such grain and we got it. Enterprise flour, at least, will continue to produce the same fine baking this year that it always has in the past.

Enterprise costs more than ordinary flour, but it's worth it. You won't waste any in needless failures and a sack will go noticeably further. The wisdom of paying for quality in flour will be more apparent this year than it ever has been before.

Liquid or Plaster

They end corns now in this scientific way

People who know—millions of them—now end all corns in this way.

They apply Blue-jay, either in liquid or in plaster form. It means but a touch and takes but a jiffy.

The corn pain stops. Then the Blue-jay gently undermines the corn so it loosens and comes out.

The modern way

Blue-jay was invented by a chemist who studied corns.

It is made by a laboratory of world-wide repute.

Old-time treatments were harsh and inefficient. Blue-jay is gentle, quick and sure.

Now all corns are needless. All these pains can be avoided. To let corns remain while you pare and pad them is folly.

You can stop a corn ache the moment it appears. You can end a corn completely before it can develop.

Blue-jay has proved these facts to millions. It will prove them to you—and tonight—if you let it.

Quit the old methods of dealing with corns and see what this new way means. Your druggist sells Blue-jay.

Fire Alarm System Repaired

Safety Director S. J. Straus stated Tuesday that the fire alarm system in the city is being inspected and placed in the best possible condition. Many trees have to be trimmed to make repairs to certain lines and this hazardous work is being done by Jack Warden, famous stoic climber, who is a member of the Seventh Street company.

Letters From Our Readers

Portsmouth, 10-18-1920

Editor Portsmouth Times:

There is a great deal being said about the conduct of motorists on the roads leading to and from our city. I will include Kinney's Lane or Twenty-first street.

Saturday night's paper contained an answer to one of a few nights previous, on this subject.

This party inferred that all this improper conduct was by our young people. But I regret very much indeed to say that in this respect he is mistaken.

This is being practiced by married people, wives and mothers, husbands and fathers of this city and a most deplorable condition I must say. An example that our young will do follow.

I would suggest, that all people interested in the welfare of Portsmouth both moral and otherwise; when riding on any of our roads, and seeing such

things going on, that they hesitate long enough to procure the license number of the machine, then report this number to our worthy daily paper for publication. A little cooperation on the part of our interested people will be necessary.

Perhaps the fear of exposure will lessen this practice, since our officials seem both deaf and blind, to the immorals practiced in our city.

Then if exposure does not work, there may be someone "higher up" that we can appeal to for assistance, and if this becomes necessary, I think a general house-cleaning should be in order.

Things of this nature, are certainly no boost, for Peerless Portsmouth. This is where the women's vote should count. This is where we get our chance to help do our bit, for a cleaner, better, place in which to live.

Yours for a clean up.

SCIOTOVILLE AND WHEELERSBURG

BOTTOM DROPS OUT OF THE OHIO

The bottom literally dropped out of the Ohio river last night as this morning at 7 o'clock it registered 1.1, the lowest stage in many years according to local river men.

The river is so low that it has sent members of the Hammer Club scurrying to their records to learn just how long it has been since the Ohio dropped down to the excessively low stage of 1.4.

As a result of the stage river traffic is at a standstill and no artificial rise is in sight.

in hard out of the state. The company won its contention that the tax was unconstitutional in the lower courts and the case has come to the supreme court on an appeal by the state.

HONEST FACTS of the COTTON MARKET SITUATION

The daily papers throughout the country have been publishing the news of a drop in the cotton goods market, but have not hardly had time to publish the big drop which really came yesterday. The drops published four or five weeks ago were simply slight drops in comparison to what happened yesterday. The merchants throughout the country have been looking for a drop, but it came sooner than anyone had ever dreamed of. The honest fact is that the bottom has completely dropped out. And we, The Marting Bros. Co., are more than glad that it has happened, as it enables the buying public who have been waiting patiently for this one great drop. We are sacrificing our entire stock to the buying public that you may be able to share in this timely happening. We also make known the fact clear to you that these prices will not be any lower seven months from now, as they are right now as low as they can go. Just a glance at the prices listed below in comparison to what you have been paying for these same items is strong evidence that the bottom has dropped out.

TREAT IT WITH LIQUID VENEER

The whole world recognizes Liquid Veneer as being the very best preparation for pianos, furniture and woodwork. Everybody will be greatly astonished to see the marvelous work it does on floors when applied with Liquid Veneer Mop. Liquid Veneer will improve any floor upon which it is used.

SWAB COMES OFF WITH A PULL

This is an exclusive feature and one that appeals strongly to all housewives. The swab when dirty may be easily pulled off the frame, washed, put through the wringer, quickly dried and put back on frame.

HANDLE ADJUSTS TO ANY POSITION

The handle is 54 inches long and may be placed in any position. It has a swing of 180 degrees and stays secure at any angle desired without tampering with nuts or bolts. It will go under the lowest pieces of furniture and into the most awkward corners.

FULLNESS IN CENTER OF SWAB

Another point appealing strongly to women. No other mop has this feature; other mops are hollow in the center and the metal parts scrape the floor. The full yarn center of the Liquid Veneer Mop gives more cleaning and polishing surface and protects the floor.

NEW SWABS MAY BE OBTAINED

This is another exclusive feature. Many housewives want more than one swab. As many swabs may be bought as desired. This saves buying a complete new mop when the old one wears out. The old mop becomes a new mop for the price of a swab alone.

The first question that presents itself is that of the necessity for greater school room facilities. We have built so many schools in Portsmouth during the last few years that we are actually overbuilt. But such is not the case. In 1918 the average number of pupils assigned to teachers was 22, at present it is 33. If no school had more than 20 pupils we might get along, but it is impossible to take up a school building built each September and set it down just where it is most needed. Parents, though wonderfully patient, often object to having their children pass two other schools to reach the one assigned. They object also to having their three or four small children assigned to as many different school buildings. This condition, however, must continue until our building program catches up with our school needs.

Our high school is already full to overflowing. Every nook and corner of the building is utilized. Enough pupils are to be promoted to the High School next February to require the addition of four more teachers to the high school corps. But where are these teachers and pupils to find a place to do their work? There is every reason to believe that September 1921 will show even greater increase in enrollment of high school students. There is no question about it. The proposed addition to the high school is a present need. But for the high cost of building, the proposed improvements would have been urged long ago. Will Tear Chicago Police Force Wide Open

CHICAGO, October 19.—Chief of Police Garrity, summoned all police department heads to a meeting today, saying he would make disclosure bearing on liquor investigations which "will tear the department wide open."

"I have learned that certain captains assigned detectives and policemen to guard whiskey shipments," the chief said. "My investigators have obtained affidavits from policemen and others involving whole police stations in the whiskey traffic."

"In addition to affidavits there is a great deal of hearsay information, which, if proved, may involve still others."

The affidavits will be shown at today's meeting of captains, the chief said. His statement came as complete surprise, police officials commented.

BASEBALL PROBE IS RESUMED IN CHICAGO

CHICAGO, Oct. 19.—Investigation by the special grand jury of the alleged "fixing" of the 1919 world's series, as well as other phases of baseball gambling, was resumed today. The last session was held just before the world's series.

At the present session, it was indicated that special attention would be paid to baseball pools, and the grand jury was expected to make some recommendations as to whether or not they were a form of gambling harmful to professional baseball.

Witnesses summoned for today's hearing included Harry Fox, owner of the Boston Red Sox; Charles E. Davis, owner of the Brooklyn Dodgers; and Ban Johnson, president of the American league, was recalled.

Telegrams have been sent to Arr. J. Rothstein, mentioned in previous hearings as a New York gambler, who profited by the alleged "fixing" of the 1919 series; Abe Mitchell, former pugilist of New York; Joseph P. Harvey, Redmond and Thomas C. Kearney, all of St. Louis, asking them to appear before the grand jury, but none of these men have answered the telegrams. Abe Mitchell was recently reported to be in Canada, and it was said he had announced his intention of staying there.

Other witnesses summoned are Fred Mitchell, manager of the Chicago Cubs; John Fox, secretary and treasurer of the Cubs, and "Tip" O'Neill, former president of the Western league and now in the White Sox office. Others to appear at an early date will include a number of local men who were said to be connected with baseball pools.

Assistant State's Attorney Replogle, in charge of the investigation said it was possible that there might be indictments in addition to the eight already returned against members of the White Sox team, but said it was unlikely that any of the men who played in the major league in 1920 would be involved.

THEATRICAL

At The Sun Tonight

"Uncle Tom's Cabin" is the drama of "Uncle Tom's Cabin" are pictured scenes such as civilization of today has put far away. Few now read that wonderful story of Mrs. Stowe, but dramatizing of which has kept alive for nearly three-quarters of a century. There are few persons of mature years, laymen or clergymen, who have not time and time again witnessed the play and yet it is as popular today as forty years ago. As a historical production it is unequalled as a pleasing performance it never failed. At the Sun Theatre this evening. Don't fail to see this great show.

At The Sun

The established program of big-time under-the-microscope comedy and first-run photoplays for the first half of the week at the Sun Theatre, will give way tonight to the road show, "Uncle Tom's Cabin", but will be presented the last three times Wednesday at a matinee at 2:30 and in the evening at 7:00 and 9:00 o'clock. The musical comedy is "Leave It To Polly", presented by the "Cheer-Up Girls", and is one of the most delightful extravaganzas ever offered at the Sun.

The members of the company are all clever and accomplished. The scenery is new and beautiful and so are the costumes. Every one of the three audiences attending the performances Monday, declared the "Cheer-Up Girls" to be delightful.

The Bill Is Never Long Over-Due

We all need recreation, but often we pay too dearly for it. Conducted over eating, late hours and irregular habits, are apt to bring their price in kidney trouble. Daily backache, dizzy spells, headaches, rheumatic pains and urinary irregularities are warnings of kidney weakness. Neglect may lead to gravel, dropsy or Bright's disease. For quick relief, moderate your habits and use Doan's Kidney Pills. They are praised the world over. Ask your neighbor.

Here is a Portsmouth case: Lewis Fencer, Carpenter, 129 Eleventh St., says: "When I stopped over a severe pain shot up from the small of my back. The kidney secretions were scanty and passed too often with a burning sensation. A friend recommended Doan's Kidney Pills and I bought some at Flood's & Blake's Drug Store. Two boxes freed me up in five days."

One of the best hearings ever held so far in the presenting of arguments for a waterway connecting Lake Erie and the Ohio river was the one held Monday at Ashtabud when the backers of the Central Route from Portsmouth to Sandusky placed their claims before the Board of Army Engineers who have been holding the hearings at Pittsburgh and Toledo. The Engineers themselves after the meeting said that the paper presented by A. E. Singleton, Traffic Manager of the Whitaker-Glessner Company was the best they had heard.

Local men in attendance at the hearing yesterday were Alan N. Jordan, J. B. Wiles, Frank M. Caggs, A. E. Singleton, Floyd Fuller, F. B. Winter, W. W. Anderson and John C. Bauer. All were more than pleased with the hearing and feel confident that their claims will be given earnest consideration by the Board of Engineers.

The engineers returned to Portsmouth Monday night with the local delegation and this morning were taken on a tour of the proposed Central Route by Mr. Jordan. The engineers are Colonel Earl of Cincinnati, Colonel Judson of Ohio and Major Milburn of Chicago.

Fifty-four million tons of freight transiting in the territory served by the proposed waterway between Sandusky and Portsmouth can be diverted from the route to Lakes as soon as the inland waterways will for every day the railway development of the region.

Fuel shortages will be avoided by the completion of the waterway and a base all rail equipment and fuel on all year water route to the west, he predicted.

Emphasizing the need of transportation to take care of the production and to meet the needs of the development of the West Virginia, C. M. Roehrer, production manager of the Tuttle Coal Corporation, Buffalo, said that West Virginia's coal production in 1918 was 29,000,000 tons at the same rate of increase as in 1917 the tonnage to 40,000,000 tons a year. "And yet," he said, "the average acreage already has been cut in half. The Logan field is exhausted. Production on the commercial scale in this field did not commence until 1911 and only 61,355,000 tons have been mined. With an average yearly consumption of bituminous coal of 200 million tons, the Logan field by itself could supply the fire demand for one hundred years."

"On the other hand, at the highest million ton production basis the Logan field would have an expected life of close to five hundred years, or at ten times the 150 of the Pittsburgh field at its present production rate."

At a 500 score was recorded in the two to one victory of the Royals over the Wholesalers at the Play House at 100 last evening. The players could not touch their credit, despite the fact that several made very good scores. The last work of the evening was turned in by L. C. McCoy, lead off man for the Wholesalers, who missed an enormous circle by only three pins. He added in the last frame of this game, but secured but five pins on his last hit, which kept him from making the Rhine. Jesse Roberts, of the Wholesalers, shot for a total of 185, or one more than Captain Bill Roberts. Mr. Roberts got the range in his last game and clipped off 197, the highest individual score of the evening. Salem Shaw was high man for the Royals, gathering 452, with Captain Neaves close by with 438. Earl Roberts, formerly good for more than 500, experienced quite a slump last evening and after a good start, 244, getting but 452. "Tanks" Are Coming, Sounds Like War Doesn't It? Yep; But They Make Up Ironton's Football Team

The Ironton Tanks, an independent eleven averaging about 185 pounds with the opponents of the N. and W. Smoke House eleven in Millbrook Sunday at 1:30.

Flushed with their victory over Catlettburg, the local gridiron team will enter the game confident of victory despite the fact that the Ironton eleven has won its three games this year, including a victory over the strong Huntington Independents.

Shorty Davies, former star halfback of the Ohio State University, eleven is running wild at one of the halfback positions for Ironton and is sure to make trouble for the local team unless carefully watched. Other star players on the team are Moore, Oberling, Neal, Hancy, Brooks, McCarthy, Dempsey and Schaeffer, formerly of Vanderbilt University.

Sam Phillips, who starred at the end last year on the Smoke House eleven is back in Portsmouth and will be seen in action at the game Sunday.

HELD IN TRUST MAY ALLISON

Based on GEORGE KILBE TURNER'S RED BOOK MAGAZINE Serial Story. Adapted by SARAH Y. MASON. Directed by JOHN E. INCE.

Mac Allison, Our Most Delightful Star Comes to the Eastland Theatre for Two Nights Beginning Tomorrow Night in Her Latest Play, "Held in Trust," the Story of a Girl Who Couldn't Be Bought—Taken From a Red Book Magazine Story. See It Sure—Also Weekly News—Franny Comedy and Orchestra.

Program Tomorrow:
A—Overture, Musical orchestra.
B—Pasture, Mac Allison in "Held in Trust."
C—International Weekly News.
D—Billy Franny in "The Glutton."
The over-increasing number of motion picture fans to whom May Allison's every reappearance is an event will have the opportunity tomorrow at the Eastland Theatre to see the golden-haired star enact a part unusual even in the long list of her successes: that of Mary Manchester, heroine of "Held in Trust."

George Kilbe Turner's magazine story, previously printed in The Red Book Magazine.

Since "Fair and Warner" and later "The Walk-Off," Miss Allison has done one character calling for emotional expression—that of Vasil, the healer, in "The Cheater"; and so tremendously well was this departure from her hitherto lighter mode of expression received that she has asayed the difficult task of making the won little Mary Manchester actually live.

This story, according to advance information, revolves about the conspiracy of two unscrupulous bankers to retain possession of a rich young widow's fortune. When she dies they engaged a young girl who resembles her closely, to impersonate the woman whose money they still seek to hold in trust.

A comedy and news reel are the added attractions on this good program.

HARDING REPLIES TO WILSON INQUIRY

BIG "OVERTURN" IN BASEBALL; ABOLISH NATIONAL COMMISSION

CHICAGO, Oct. 19.—Owners of five American league baseball clubs, those of Philadelphia, St. Louis, Washington, Detroit and Cleveland, men who have supported President Ben Johnson of the league in several controversies this season and in past seasons, have until November 1, the opportunity of joining the other three club owners of the league and entire eight of the National league in the reorganization of baseball or face the prospect of a fight to oust them from major league play.

Representatives of all the National league baseball clubs and three American clubs, New York, Chicago, and Boston, today were on record favoring abolition of the National agreement between professional leagues, with the national commission abolished, and a civilian tribunal of three men not financially interested in the game, in complete control.

Yesterday's conference of more than nine hours' duration, closed its work with resolutions, adopted last night, proposing complete reorganization of major league baseball.

The twelfth club for the new scheme of play to be followed next season will be chosen from some other city, should it develop that none of the outstanding five club owners fails to express willingness to enter the new pact, it was stated today.

While the definite threat was expressed in the resolution endorsed by the 11 baseball magnates to lay plans for a new major league circuit without the five existing American league clubs, if they refused to agree to the reorganization of the national commission, none of the club owners present declared that no plans would be discussed for excluding the five clubs in the new scheme of baseball control until they had been given plenty of time to consider the situation.

The general outline of the new conference held in the baseball world has definitely expressed but no steps were taken toward a reorganization of the two major leagues under the new scheme.

Reorganization plans, outlined by A. D. Lasker, stockholder of the Chicago National league club, called for a

CONVICTION OF AMERICAN SOCIALIST PARTY STANDS

WASHINGTON, Oct. 19.—The supreme court today refused to review the conviction in New York of the American Socialist party for violating the Espionage act. The party was fined \$3,000 for publishing a pamphlet by Scott Nearing entitled the "great landrush." Nearing was tried at the same time, but was acquitted.

Upon the government's motion confessing error, the court reversed lower court decrees holding James A. Peterson of Minnesota, guilty of violating the Espionage law. The case was remanded to the lower court for retrial. Peterson was sentenced to four years imprisonment.

Peterson was a candidate for the Republican senatorial nomination at the primary election in 1918 against Senator Nelson. His conviction resulted from an article he wrote which appeared in a Minneapolis weekly newspaper, and which made derogatory mention of the United States senate.

The court refused to review the case of Charles B. Munday, a banker of Chicago, convicted of embezzlement and sentenced to an indefinite penitentiary term.

BASEBALL PROBE IS RESUMED IN CHICAGO

CHICAGO, Oct. 19.—Investigation by the special grand jury of the alleged "fixing" of the 1919 world's series, as well as other phases of baseball gambling, was resumed today. The last session was held just before the world's series.

At the present session, it was indicated that special attention would be paid to baseball pools, and the grand jury was expected to make some recommendations as to whether or not they were a form of gambling harmful to professional baseball.

Witnesses summoned for today's hearing included Harry Frazee, owner of the Boston Red Sox, Charles Ebbets, owner of the Brooklyn Dodgers, and Ben Johnson, president of the American league, was recalled.

Telegrams have been sent to Arnold Rothstein, mentioned in previous hearings as a New York gambler, who profited by the alleged "fixing" of the 1919 series. Alvin Karpis, former pugilist of New York; Joseph Pesch, Harvey Heilmann and Thomas C. Kearney, all of St. Louis, asking them to appear before the grand jury, but none of these men have answered the telegrams. Alvin Karpis was recently reported to be in Canada, and it was said he had announced his intention of staying there.

Other witnesses summoned are Fred Mitchell, manager of the Chicago Cubs; John Sege, secretary and treasurer of the Cubs; and "Tip" O'Neill, former president of the Western league and now in the White Sox office. Others to appear at an early date will include a number of local men who were said to be connected with baseball pools.

Assistant State's Attorney Replege, in charge of the investigation said it was possible that there might be indictments in addition to the eight already returned against members of the White Sox team, but said it was unlikely that any of the men who played in the major league in 1920 would be involved.

FRANCE HAS NOT VIOLATED PROPRIETIES, SAYS G. O. P. NOMINEE

MARION, Ohio, Oct. 19.—Replying to an inquiry from President Wilson, Senator Harding wrote the White House tonight that although France had sent her "spokesmen" to him informally asking America to lead the way for an association of nations, the incident had not involved the French government in any violation of international proprieties.

The Senator declared that in his reference to the subject in a speech at Greencastle, Ind., recently he only had sought to convey the thought that there had come to him "those who spoke a sentiment which they represented to be very manifest among the French people." He added that his words "could not be construed to say that the French government had sent anybody to me."

Referring to Mr. Wilson's suggestion of improperly in a foreign nation, approaching a private citizen on such a subject, Senator Harding pointed out that he is a member of the foreign relations committee as well as a nominee for the presidency and suggested that "an informal expression to me is rather more than that to a private citizen."

The text of Senator Harding's letter sent in reply to one from the President asking whether the Senator had been correctly quoted in his Greencastle speech is as follows:

Dear Mr. President:

I gave before me a press copy of your letter to me of this date, though I am not in receipt of the original copy. I am glad to make a prompt reply.

It is very gratifying that you hesitate to draw inferences without my assurance that I am correctly quoted. The quotation as reported in your letter is not exact. The text of the statement regarding my remarks quote me as saying "France has sent her spokesmen to me informally, asking America to lead the way for an association of nations."

Sentiment of People

I am sure that my words could not be construed to say that the French government has sent anybody to me, the thought I was trying to convey, was that there had come to me those who spoke a sentiment which they represented to be very manifest among the French people, but nothing could suggest the French government having violated proprieties of international relations. Official France would never seek to go over your high office as our chief executive, to appeal to the American people or any portion thereof.

I can see no impropriety in private citizens of France, or in Americans deeply friendly in France, expressing to me their understanding of sentiment in that friendly republic.

It is not important enough for discussion, perhaps, but I very respectfully urge that an informal expression to me is rather more than that of a private citizen. I hold a place as a member of the foreign relations committee of the United States, which is charged with certain constitutional authority in dealing with foreign relations, and I am necessarily conscious that I am the nominee of the Republican party in our republic.

A combination of these two positions might not be uselessly that some very devoted friends of a new and better relationship among nations, matter where they come should wish to advise me relating to spirations to co-operate with our own republic in attaining that high purpose. Let me assure you again of the observance of all the proprieties and again assert that the French government has maintained that great respect for your position to which I myself subscribe.

With great respect, I am,

Very truly,

WARREN G. HARDING.

To Bare Parties' Money Deals Before Election

ST. LOUIS, MO., October 19.—Five days before the coming election, on Thursday, October 28, complete records of the collection and disbursements of the Republican and Democratic parties will be submitted to the public.

The senate committee appointed to investigate campaign expenditures meeting here, yesterday directed the chairman of the national senatorial and congressional committees, of the two parties, to file such reports at Chicago on that date. The reports are to cover all activities since the party chairmen testified at the committee hearing in Chicago several weeks ago.

In telegrams addressed to Will H. Hays, Republican chairman; George White, head of the Democratic national committee; and the heads of the other party organizations, the committee asked for complete lists of all subscriptions in excess of \$100; detailed figures on expenditures; and also a list of all pledges, promises or underwriting. Senator Reed specifically asked for the latter in an effort to learn whether any arrangements had been made to meet the deficits which it has been reported, both parties will face after the election.

The senatorial committee recessed after yesterday's session and does not expect to meet again until after November 2, provided the party chairmen agree to file the information asked for. In event they refuse or fail the senators decided to meet in Chicago prior to the election and subpoena the chairmen of the committees.

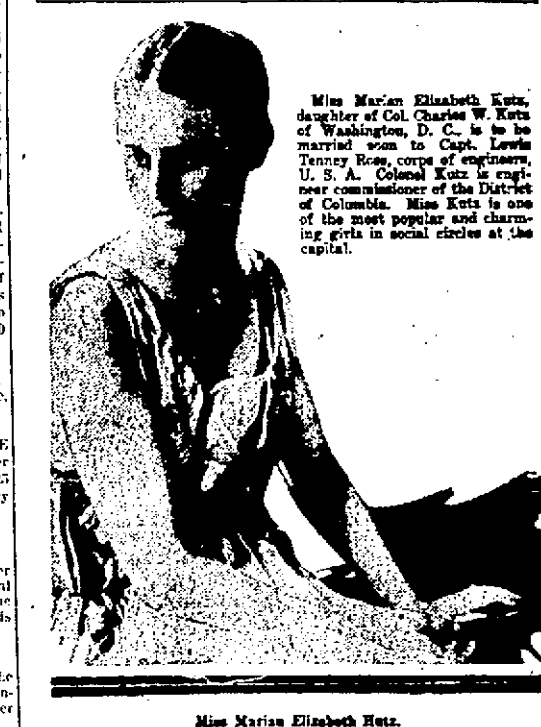

Investigation of all senatorial campaigns was deferred by the committee until after the election. Breckenridge Long, Democratic senatorial nominee in Missouri, who had been subpoenaed, was dismissed without being heard.

A lengthy report on the activities of the league to enforce peace, of which William H. Taft is president, introduced into the records before the senators last night, may be followed by further investigation of the league and examination of its officers, members of the committee indicated last night.

Don M. Hunt, attorney for the committee, who prepared the report following investigation of the letter files of the league, suggested in his findings that some members of the league had, in his opinion, violated the Logan act, passed in 1799, to prohibit private citizens negotiating with foreign governments or their agents in matters of

Not a 300 Score

Not a 300 score was recorded in the two in one victory of the Royals over the Wholesalers at the Play House alleys, last evening. The players could not baffle their credits, despite the fact that several made very good scores. The best work of the evening was turned in by E. C. McCoy, lead off man for the Wholesalers, who missed the charmed circle by only three pins. He doubled in the last frame of his last game, but secured but five pins on his last hit, which kept him from crossing the 300 mark. Jesse Roberts, of the Wholesalers, shot for a total of 465, or one more than Captain Bill Critchfield. Mr. Roberts got the range in the last game and clipped off 107 for the highest individual score of the evening. Salem Shaw was high man for the Royals, gathering 462, with Captain Keyes close by with 458. Earl Reinhardt, naturally good for more than 300, experienced quite a slump last evening and after a good start faded, getting but 452. Ted Cunliffe finally got the range after a poor start and closed the engagement with 180. William Hazelbeck started well and

then ran into some rough weather. On to Major of the Wholesalers never got started. The Wholesalers were also handicapped by the fact they were compelled to shoot with a blind. The scores:

League Against Suicide

By Frederic J. Haskin

NEW YORK CITY, October 19.—One of the strangest of the many strange careers that are followed in this city is that of the Reverend H. M. Warren, head and whole active working force of the Save-a-Life League.

In New York, which is commonly described as the most heartless place in the world, you can get free help for almost any sort of disease or distress that may afflict you. Thus if you have decided that life is not worth living and want to make an end of your share in it, the Reverend Warren will talk to you with you in a most sympathetic and comprehending way. He will show you about 50 reasons why you should not kill yourself, and he may go a long way toward restoring the practical difficulties which lie at the root of your despondency. If you cannot go to him, you can write to him. His address is 98 West 71st Street.

For many years it has been Mr. Warren's daily task to interview from two to seven persons who are contemplating self-destruction. His evenings are spent in writing to others in the same state of mind, and in calling on persons in hospitals who have tried to take their own lives and failed. Surely no man ever assumed a more depressing task in the interests of his fellow beings. And Mr. Warren feels the strain.

"I am certainly glad it's you—some one healthy and cheerful," was his greeting to the interviewer. "I'm not quite myself today. I've just been writing to a young man in Boston who says he is going to die next Tuesday unless I can prove to him that he should not. And the worst of it is that I cannot go to him now."

Causes of Suicide

Warren is a man of middle age, and he lives and works in an old brown stone-front house. At first one is inclined to take him for a religious fundamentalist, overborne by the gloom in the midst of which he lives, but a little conversation dispels this impression. The man shows real insight and real power. He approaches his task from a religious angle, but he is not bound either by orthodoxy or conventionalism. He advises the better humanism which came to him in seeking consolation in God, but he himself attributes to their practical difficulties with shrewd common sense and real comprehension of human nature.

Mr. Warren has many interesting things to say about the causes of suicide. He does not believe that most suicides are mental defects, or insane persons. He says that three-fourths of those who come to him are sane and of at least average intelligence, while many of them are gifted persons. They have decided to kill themselves because it has seemed clear to them that life is not worth living. In about half of the cases economic distress is a factor. That is, the world is suicide is often poor and undernourished, and whether this is the immediate cause for his despair or not, it contributes to it. Mr. Warren always begins on such cases by feeling them.

Troubles connected with sex in some way are the cause of at least one-third of suicides, Mr. Warren believes. Persons suffering from venereal disease, which, is, or which they believe to be, incurable; persons who have married and found themselves impotent; persons who have discovered that the spouse is unfaithful, and fitted lovers make up a large percentage of those who come to his door. Unmarried mothers are another large class. In some cases the troubles of these people are real and even terrible, and in other cases they merely involve the breach of conventional standards, which the individual regards with holy awe and has not the strength to criticize. Thus an elderly man came to

Mr. Warren to tell him that after living for many years with his supposed wife, he had discovered that a divorce which he had obtained many years ago was not valid, and that he was really a bigamist. He had been happy with his unlawful mate, no preventor or scandal threatened him. He was merely horrified at the thought that he was living in sin, according to legal and religious standards, and he came to Mr. Warren to ask for help.

Loss of property all at once is another frequent cause for suicide. The person who has long depended upon an income, and has not learned how to make a living, often falls into the deepest despair if that income is lost.

Loneliness is the plea brought forward by many contemplating self-destruction. Most often these are old or afflicted persons who feel that they are not wanted in the families of which they are members and upon which they are dependent for a living. These persons simply feel that there is no place for them on earth. They are among the most pathetic of all human beings.

The woman who has been unable to find a mate often contemplates suicide, and she is not an uncommon figure in American life. She is not at all unattractive woman either, according to Mr. Warren.

Many of those contemplating self-destruction fear arrest for some crime which they have committed. The case of the young man employed in a financial house who horrifies the firm's funds to speculate with, and then loses, is a very common one. Mr. Warren recently succeeded in adjusting such a case when the man had fully decided to kill himself. He was restored to his position after making a confession, and regarding all concerned that he had not enough of crime.

The percentage of suicides and attempted suicides among women is on the increase. Mr. Warren is convinced that this is easily explicable by the fact that woman is constantly taking a more and more active part in the work and strife of the world. He has to add that he is not one of those conservatives who deplore woman's entry into business and politics. He thinks it is certainly inevitable and probably desirable. But the woman who goes out to make her own way in the world, like a man, is exposed to far more hard knocks than the one who is sheltered in the simple routine of her household duties. She soon learns that freedom means also hazard and responsibility. And perhaps her more volatile emotional nature makes her more liable to the state of depression in which life seems no longer worth living.

Child Suicides

Child suicide is another thing which is on the increase. It is seldom limited to a child commits suicide before the age of fourteen, although infant suicide is not unknown. Thus a boy less than five years old killed himself by drowning in a fountain after announcing his intention.

Child suicide is committed mostly by boys and girls from fourteen to sixteen, and is a result of the disturbed mental and emotional state that goes with the approach of adolescence. Often the immediate cause is a failure in school examinations or a fear of failure. The desire to spite a parent is not an uncommon motive of child suicides. An astonishing variety of methods are used by suicides, but the most popular, as doubtless the easiest and least painful, is by the inhalation of illuminating gas. Drowning comes next in popularity as a method of dying. But a surprising percentage of women suicides choose the method of leaping from high places—perhaps the most universal and terrible of all means of self-destruction.

Q. What government department is making and selling the paper suits?
A. R. F. H.

Q. The Department of Commerce says the paper suits are not made by the government. The Department of Commerce did have several suits made, which were on exhibition in Washington, and are now on exhibition in New York City. This exhibition is to encourage manufacturers to make suits of this kind which would bring about the price of woolen and other clothing. For the Department of Commerce has not succeeded in having manufacturers take up this line of work. These suits will be exhibited all over the United States and will stay in large cities from 10 to 12 days.

New-York - Day-By-Day

By O. O. McIntyre

NEW YORK, Oct. 19.—Fred Stone, Astor, makes his appearance in his new play this year in a sudden and spectacular manner. He is heard by the audience, going down the cellar. There is an explosion and a figure dashes through the stage, sending splinters flying. The figure is covered with a white foam.

After turning a somersault in the air, Stone lands on his feet with the remark: "Well folks I put in one too many rubles." He has described his habit this season for a black snake, which he has been eating with a fork and knife. He has also described his habit of eating a whole cow, which he has been eating with a fork and knife.

Incidentally Stone's show marks the peak of high prices in the theatre. The orchestra seats are \$2.50. If the spectators succeed in their usual aim with hits the best seats will be sold out and the price will probably be \$3.00 each.

There is no denying that the audience has seen the appearance of Fred Stone's partner, Dave Montenegro, who passed on several years ago. He was not a great comedian but he was a lot of inimitable worth and it is doubtful if anyone will ever be found to replace him. Stone is never called before the curtain that he does not pay tribute to the companion of his long and hard life.

Each year he journeys to Montana, and his grave is a mark of respect and his name is never mentioned by Stone without a show of emotion. It was a staunch friendship that endured in an atmosphere of jealousy and pettiness. The nearest approach to it was the friendship of Joe Weber and Love Fields but at last they came to a parting of the ways.

Tommie Gray, the Broadway wit, was talking to a friend in front of the hurried lunch.

"What's that?" asked Gray. "An' he's dead?" repeated the friend. "That's good bye in French," said Gray. "Well, well, well, that's good bye in any language."

No doubt there is a sub-story in the advertisement in a morning paper which reads: "For Sale: Croix de Guerre. Owner needs \$100."

A new orchestra leader has come from San Francisco six months ago and now the Broadway leader. Now they are battling Paul Whitman from the same city who is leader in a Broadway restaurant. They have his name up in electric lights just as if Whitman's name blazed on a Forty-second street sign. Heckman led his orchestra with drums and was rarely away. Whitman is also undisturbed, which is a decided contrast from the favorite leaders of the jazz era. Incidentally the most popular dance tune so far for the fall season is "Feather Your Nest." Another one is "Don't Tell Me."

A new breed of four flushing. A young man goes to mother in a fine to replace him. He is snubbed. He turns and looks to leave him. "Why you pay tribute to the companion of his long and hard life?" he asks. "I knew you when you used to dress yourself—never knew what a velvet was. I knew you when you loved your own skin and drew your own bath. Just because you have been left several millions you snub your friends. I am through with you." Then he walks away. "The truth is that both are half moon boys but by this method they hope to impress someone with the idea of wealth. Add of course, later on, the wealthy one will seek to make a

"Gone, But Not Forgotten" asked little Tommy at the dinner table. "No," said his father, "what makes you ask a question like that while we are eating?" "You had one on your lecture, but it's gone now," replied Tommy.—Ladies' Home Journal.

Where the Gulls All Go "We're having our cellar decorated; going to put some rugs on the cement floors and hang our best pictures on the walls."

"What's the idea?" "If I've got to entertain all my friends down there I thought I might as well have the place made home-like and respectable."

The Power of the Young Tompkins put his pistol on the dining room table with a casual air. "What have you got there, Edward?" asked his wife sternly.

"It's just a set of gloves, my dear," explained her husband. "I bought them for Thomas. Every American boy in the future should be taught the noble art of self-defense, and I will teach our son. Come into the garden, Thomas! Don't be alarmed. I will not hurt you!"

Volley Ball Season Opens

The Excelsiors opened the Business Men's Volley Ball season with a two out of three victory over the Wholesalers in Williamette Hall yesterday afternoon by the score of 21-14, 21-8 and 19-21.

The Excelsiors played a splendid passing game, and Irvin Ross got a twister over on his serve, that baffled his opponents. Gowsky also starred for his team.

The Wholesalers were far below their usual standard, and were especially weak in serving. Orla Riskey being the only one who starred at service. With a little more practice, the team should quickly round out to its old line form. The lineups were as follows:

Excelsiors—Capt. Hank Gowsky, Earl Rardin, John Underwood, Irvin Ross, J. Frazier and Don Phillips.

Wholesalers—Capt. C. M. Howland, P. E. Selber, Orla Riskey, Earl Rardin, Walter Haas, J. Meaus and George Cornette.

Would Eliminate Crossings

George Walsh, of Olway, Democratic candidate for county commissioner who is in the city looking after his political fences, declared Tuesday that if elected, one of the first things he proposed to do was to eliminate the grade crossings between Harden and Healey, because, he said, it could be done at a nominal cost and should have been done years ago.

Mr. Walsh is making a vigorous campaign and has received much encouragement from his wide circle of personal friends in both parties.

BIG DEAL IS CLOSED

HUNTINGTON, W. VA., October 19.—Through the agency of J. Ferguson Thompson and Harvey C. Taylor, a deal was closed yesterday by which A. Solof acquired the C. Miller block, corner Third avenue and Eleventh street, at a consideration said to be between \$75,000 and \$80,000.

The deal is said to have set a new high mark for value in this Third avenue block, the price paid being the highest yet named for property on Third avenue between Tenth and Eleventh.

DISAPPOINTED IN CHILLICOTHE'S REGISTRATION

CHILLICOTHE, Oct. 19.—At least 7438 votes will be cast by Chillicotheans in November.

In the four days recorded during the month of September and October, for registration, this number of citizens signified their intention of exercising their rights of franchise.

The annual registration falls short of the anticipated total by 2000, notwithstanding the fact that as many as 9000 would be registered in the city.

Rev. W. E. Watson New Minister Of Allen Chapel

Rev. W. E. Watson, of Quinn Chapel A. M. E. Church, of Ironton, is the new pastor of Allen Chapel, Seventh street, this city. He replaces Rev. T. A. Green, who was transferred to the Pittsburgh Conference of the church.

Rev. Watson has served the Ironton church for three years, and has succeeded in building up the work there in a splendid manner. He has a fine field here and expects to accomplish much good.

The new minister held his first meeting with the officers and various organizations of the church Monday evening, and plans were made to continue the construction program laid out by the church some time ago. The various organizations will do their best to see that the work on the new church at Twelfth and Waller, moves along until it is completed.

Rev. Watson will move his wife and daughter here as soon as a house can be found. He also has a son who is a student in the Cincinnati College of Medicine.

Rev. T. A. Green came here about a year ago from Canada. Recently at the state conference of the church held at Xenia, he was returned here, but later the bishop in charge, announced the transfer.

Inaugurate No Accident Campaign On The B. & O.

The No-Accident campaign of the B. & O. Railroad opened immediately after midnight Sunday and will continue for a month. C. W. Galloway, vice president in charge of operation and maintenance, sent out a message Monday to all officers and employees urging their support in the drive which has for its object the elimination of accidents of all kinds from railroad service.

The number of employees has grown to 20,000 and so also has the business handled. Heretofore the call of the nation for greater speed in transportation, Baltimore and Ohio employees have been working under great pressure and this is responsible in great measure for the increase in casualties. But it is believed that the railroad workers can, if they are properly motivated, be convinced that they can work safely as well as swiftly and this is one of the prime objects of the coming campaign.

The different divisions of this railroad have mapped out already their plans for the successful conduct of the drive. Each one is anxious to win the pennant which will go to the division making the greatest reduction in accidents as compared with the same period last year. Division officers and other in this territory are showing keen interest in the drive.

STABLE BURNS; CHICKEN THIEVES SUPPOSED TO HAVE CAUSED FIRE

A two story frame stable in the rear of the William (Button) Scott home, 527 Sixth street, was destroyed by fire about 8:15 o'clock Monday evening. The fire, of unknown origin, had gained much headway when discovered by Mrs. Scott.

Members of the household and neighbors, who assisted in getting a number of chickens out of the stable, advanced the theory that the stable was accidentally set on fire by someone who was in the stable to steal some of the chickens as the doors were found open when the rescuers of the chickens went to the stable. This morning Mr. Scott said that he had accounted for about forty of the chickens, which leaves about 10 missing, stolen or burned.

The stable was used as a poultry house by Mr. Scott.

The fire alarm, raised in by a neighbor, called the First, Second and Seventh street fire companies to the fire and the flames that lit up the sky for a few minutes were soon under control, the firemen losing no time in getting several streams on the fire.

The loss is covered by insurance.

Watchdog will insure 100.
